---

The Albatros Nordic Lounge brings warm Nordic hospitality to the Antarctic. Offering a large choice of drinks, including wine-tasting menus from Gerard Bertrand, this is the perfect place to relax after an unforgettable day and make new international friends... or like we say in Denmark: *Hygge*.

## SHACKLETON LECTURE LOUNGE

---

What makes a good expedition? It is a combination of its landings and the experiences onboard the ship. At Albatros Expeditions we are honored to have an amalgam of experts in our expedition team, from climatologists and geologists to renown photographers, all eager to share their adventures and knowledge with our guests.

## ALBATROS OBSERVATION LOUNGE

Celebrate the dream polar adventure, engage in conversation and relax while admiring the icy landscape of the polar regions. At our Nordic Observation Lounge we aim to create a fun and enjoyable atmosphere with varied cocktails and drinks, appetizers and smaller events.

## KNUD RASMUSSEN LIBRARY

Honoring the great explorers, the lecture room allows for an adventure within an adventure. Here you can find sagas, narratives and practical information on the polar regions, in various languages and subjects. From encyclopedias of the polar wildlife and fauna to narrations of the many challenges faced by the first expeditions, this is the perfect location for entertaining your brain while we sail.

# A FEAST FOR YOUR SENSES

The carefully designed menu has been developed in the interest of maintaining the well-being of guests, while emphasizing on freshness, diversity and delectable choices.

---

**DINNER ALWAYS STARTS** with delicious hot soups, cold cuts and crisp, fresh salads. Several choices of entrees are offered each evening, to accommodate different tastes and dietary requirements; always including a meat choice, fish choice and vegetarian choice.

**AFTER DINNER, FRESHLY PREPARED DESSERTS**, including ship-made ice cream or cakes... A great way to end a meal and satisfy any sweet tooth!

On board Ocean VICTORY, you will find kitchen professionals and chefs who take great pride in bringing gastronomic experiences to keep your tastebuds satisfied.

When the first explorers began their Antarctic undertakings, they had little choice and even less variety in their nourishment options.

Dining at the bottom of the world was not a delicacy, but a duty necessary for survival. Luckily for us, today is another story. Meals are served in the bright and spacious Beagle Restaurant, where spectacular views provide the perfect atmosphere for the daily culinary selection.

*"Ocean Victory boasts exciting new gastronomic delights, a top deck panorama "lava rock" restaurant, where our guests enjoy a delicious, healthy, nutritious and sensational tasting experience cooked directly at their table, as well as degustation wine-tasting menus featuring Gerard Bertrand wines".*

- Dietmar Wertanzl, President & CEO, CMI Leisure

# ANTARCTIC PANORAMA SPECIALTY RESTAURANT

— OUR **SPECIALTY RESTAURANT ON DECK 8 OFFERS UNFORGETTABLE VIEWS WHILE ENJOYING A UNIQUE WAY OF FOOD PREPARATION: LAVA STONE COOKING.**

The method of cooking on stones can be traced back to the Ancient Egyptians and our Nordic ancestors, the Vikings!

Lava stone cooking offers a unique interactive dining experience, where meat and fish dishes are served cooking at your own table

on super-heated natural volcanic stones. The high temperature sears the food faster and locks in the natural juices and nutrients, enhancing the full flavors and tenderness of all foods.

The cooking method uses no added fats or oils and sears the food

without burning. It ensures a clean, and completely natural food flavor, not achievable with any conventional cooking methods.

The result is a freshly grilled, healthy and nutritious meal with a sensational taste.

# BIRD'S EYE VIEW DECK

OUR **SPECIALTY RESTAURANT** ON DECK 8 **OFFERS** UNFORGETTABLE VIEWS, WHILE ENJOYING A UNIQUE WAY OF FOOD PREPARATION: **LAVA STONE COOKING**.

*"Observation decks are an important component for an optimal expedition experience. The Ocean Victory offers plenty of observation space, mostly completely unobstructed, for the best views of Antarctica. Our gems are the hydraulic observation platforms in the front, and the deck nine "Bird's Eye View"; unique features that will make the Ocean Victory stand out versus any other expedition vessel".*

- Gorm Pedersen, Managing Director, Albatros Expeditions.

*"The Ocean Victory, the next infinity class vessel delivered from a series of newbuilds, offers a one-of-a-kind and complete immersive experience. Technologically advanced, with a unique design and beautiful European interiors, this vessel remains true to what Expedition Cruising should be all about."*

- Jim Barreiro de León, President & CEO, Cruise Management International, Inc.

# Zodiac & Hydraulic observation platforms

The Ocean Victory offers an unbeatable expedition experience, due to its rapid zodiac loading arrangement and its fantastic observation areas, including unique hydraulic platforms:

Plenty of observation deck space, including the exclusive deck 9 "bird's eye viewing platform", and the unique front location hydraulic observation platforms. These give our guests a better, closer and fully unobstructed views of icebergs, birds and whales, bringing them closer to the majesty of Antarctic nature.

The combination of zero-speed stabilizers, dynamic positioning ("virtual anchoring") and five zodiac loading platforms, means that our guests can be in their zodiacs faster than any other ship of a comparable size. This implies we not only spend more time off the ship exploring, but also can react faster when unexpected wildlife encounters happen.
